PROGRAM OVERVIEW:

The Level 1: Fundamentals Program is a one-year program designed for people desiring in-depth course work and supervision in Donna Eden's style of Energy Medicine. This program is based on a curriculum developed by Donna, along with her faculty members. The goal of the program is to help any student of Eden Energy Medicine obtain a firm foundation in the body of work Donna has created over the past 30 years and to develop the skill levels necessary to begin using these techniques regularly, either with family and friends, or in a professional setting.

All classes include a combination of teaching and hands on practice in small groups, as well as question & answer sessions.

Classes are small, with an intimate and supportive learning environment. Each class includes Eden Method Teaching Assistants who are Certified Energy Medicine Practitioners to assist your primary teacher.

For this program, you will need to complete a take home, open book test & a pre-scheduled live or online (Zoom/Face time) demonstration of the material learned, after each quarterly class.

Students needing to use the online option for the demo will need access to a computer with a video camera and high-speed internet access so the teacher can watch the demonstration remotely in real time.

Successful completion of Level 1: Fundamentals will give students the option of applying this class work toward the Level 2: Certification Training held at one of the regional centers, currently in Baltimore, Maryland area and Phoenix, Arizona. Completing Level 2: Certification Training is optional; students in Level 1: Fundamentals may feel satisfied after one year and not see a need to take their studies further. At the end of the one-year Level 1: Fundamentals program, students will receive a certificate stating they have completed the Level 1: Fundamentals in Eden Energy Medicine, but this should not be construed as a certification in Eden Energy Medicine, as that requires the completion of the Level 2: Certification Training, along with applying for and completing the certification process through Innersource.

Please Note: The main purpose of the Level 1: Fundamentals program is educational. Classes include lecture, participating in supervised small group practice time, and question and answer sessions. Each class is designed to provide you with skills for working with the body's energies to promote physical and emotional well-being. This can be an intense experience and doing energy work in a large group can be taxing. If you are not in good health, we ask you to take this into account before registering. *If your primary need is in pursuing a healing experience, we encourage you to contact one of the trained practitioners listed on Donna Eden's website and work with them directly.*
